## Instructions Information stand "Tips on Payment Security for Everyone"

*To create an information stand on payment security, print out 6 posters and place them on the stand in the order shown in the layout below.*

*You will require a 80 cm by 80 cm stand for setup.*

*You can also arrange smaller information stand with only 3-4 posters.*

## The layout for setting up posters on the stand

**80x80**

# Tips on Payment Security for Everyone

## Do not tell anyone!

CVV code on the back of your card

Your online banking password

Bank codes and mobile operator codes

#ШахпайГуьбай

You can only give the 16-digit number of your card!

## Cover your PIN code correctly!

Cover the keyboard when entering a PIN code

#ШахпайГуьбай

## Don't click on links from strangers

Fraudsters can get hold of personal data and card details.

Got a link from a friend? – Don't click just yet.

First call your friend and ask them whether they actually sent you the link.

## Protect your accounts!

Create different and complex passwords for online banking, e-mail, and social media accounts.

#ШахпайГуьбай

## Protect your accounts!

Set up two-factor authentication whenever possible.

That's so when logging into an account, apart from your login and password, you'll need to enter a confirmation code sent to your smartphone, e-mail, or a respective app.

## Protect your smartphone:

- Set a password;
- Make sure notifications on your blocked screen don't contain confidential content
